EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Schaefer on 9/27/2007.

The application has been amended as follows:

Specification page 5 line 15 "is engaged with the cover" has been changed to --is pivotally engaged to the cover--

Claim 1 line 3 "and provided" has been changed to --and each provided--

Claim 1 line 6 "at other end" has been changed to --at another end--

Claim 1 line 10 "and one of said" has been changed to --and said one of said--

Claim 1 line 14 "said two side plates being" has been changed to --said side plates each being--

Claim 1 line 16 "is pivoted with" has been changed to --is pivotally engaged to--

Claim 1 line 18 "." has been changed to --; whereby when a hook type windshield wiper arm is attached to the connection device the hook-type elastic piece is deflected toward the connection piece by a curved portion of the wiper arm, and each of the first and second elastic pads are deflected toward the connection piece by a flat portion of the wiper arm.--

The following is an examiner's statement of reasons for allowance: The prior art shows various types of windshield wiper connection devices, but fails to show a windshield wiper connection device having an insertion type elastic piece, a hook type elastic piece, a side plate with two elastic pads and a cover pivotally engaged to a cover fixing slot, whereby when a hook type windshield wiper arm is attached to the connection device the hook-type elastic piece is deflected toward the connection piece by a curved portion of the wiper arm, and each of the first and second elastic pads are deflected toward the connection piece by a flat portion of the wiper arm, in combination with all other limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
